COMMUNITY DISCUSSION

Community reflection and year-end meetup

In this last meetup of the year, we will be reflecting on 2022 meetups, getting feedback from the community, and hearing ideas and suggestions for 2023 meetups. Do you have feedback you would like to share? Do you have questions or need assistance? Do you have some ideas for 2023 meetups? Join us in this discussion, we would like to hear from you! Previous meetup recordings are available on the [RSSE Africa YouTube Channel](#).

> REGISTER NOW

WHO SHOULD JOIN THIS EVENT?

Join this meeting if you:

- develop software for research
- are a postdoctoral researcher who predominantly develops software
- mostly do coding or software development in a research group
- have had to build a program or software while doing research
- want to learn more about RSSEs globally
- want to join a growing community of RSSEs in Africa

STAY CONNECTED - JOIN THE RSSE AFRICA FORUM

The RSSE Africa forum is an online community of practice for Research Software Engineers and Systems Engineers working on the African continent. It is open to all regardless of career stage or experience. We hope to share learning opportunities, help catalyse collaborations, and facilitate discussions about our work at the intersection of software and/or computing solutions in research.
